

**Project Acronym :** SmartGrids-TPS

**Project Title :** Secretariat of the Technology Platform for the Electricity Networks of the future

**Coordinator :** AIZABALA - Asesoria Industrial Zabala SA, Belgium

**Website :** <http://www.smartgrids.eu/>

## ABSTRACT

The objective of this project is to establish a secretariat to support the Technology Platform for the Electricity Networks of the Future (SMARTGRIDS) in efficient and transparent management of platform activities, projects, results and communication strategy and so contribute to achieving the statutory platform objectives and ensure their highest quality.

Main activities :

- Support to the platform groups in organisation and management of periodic meetings
- Generation of high-quality results
- Implementing monitoring activities and quality control reviews of deliverables
- Internal IT support service for communication, document and knowledge management
- Implantation of communication strategy (information centre (public internet site), project info-tool, periodic newsletter and 2 international conferences. The consortium comprises two complementary partners uniting all necessary skills for successful completion of the objectives.
