ABSTRACT

“Green bikes for peace” is an international 30-day-long biking tour covering 5 countries (Italy, Slovenia, Austria, Slovakia and Hungary), having workshops, events in major cities on various topics, trying to bring different aspects of sustainability closer to youth. One of the intelligent energy related subprojects is to carry around with the bikes a mobile concert equipment which is powered by pedaling the bikes, thus resulting in zero CO2 emission. The tour is in the preparation phase at the moment; it will take place on Summer 2009 (June 19th -July 19th).
